The BSc in Software Development is a three-year level 7 degree programme designed to provide students with the theoretical and practical skills necessary to gain employment in the software development industry. More specifically, the programme provides students with the relevant skills and knowledge in the area of modern software development focusing on languages, techniques, tools and methodologies, and their application to real-world problems.

Year one of the programme introduces a broad range of computer science modules including an introduction to databases, mathematics, operating systems, programming, fundamentals, web development, networking and security.

The second year of the programme adds the study of algorithms and data structures, object-orientated programming, database architectures and design, statistics and probability, and software engineering,

The final year has a significant work placement element where students are placed with selected employers for up to 9 months starting in January of year three.

Potential areas of employment include working as a Software Developer, Software Tester, Software Support Engineer or Database Developer, to name but a few career possibilities.

Department of Computer Science

The Department of Computer Science at Cork Institute of Technology is one of the largest Computer Science departments in Ireland. We offer a range of modern undergraduate programmes and a host of opportunities at master's degree and at PhD level. Our industry engaged programmes match the needs of our economy and have an excellent reputation for producing the most employable computer science graduates. These highly skilled graduates are in huge demand and contribute significantly to the development of the region. As technology plays a greater role in our society the growth in the demand for these graduates will continue year after year. Detailed programme descriptors can be viewed under the Computer Science link at <http://courses.cit.ie>.

BSc Software Development Programme Schedule

Click on each hyperlink below to view module descriptors. Please visit <http://cs.cit.ie/sd> for more information.

Year 1 - Semester 1	CR	Year 1 - Semester 2	CR
Programming Fundamentals (SOFT6018)	5	Modular Programming (SOFT6017)	5
Web Develop Fundamentals (SOFT6007)	5	Introduction to Databases (COMP6041)	5
Computer Architecture (COMH6002)	5	Operating Systems in Practice (COMP6042)	5
Computer Security Principles (COMP6035)	5	Networking Fundamentals (COMP6027)	5
Maths for Computer Science (MATH6055)	5	Discrete Mathematics (MATH6004)	5
Creativity, Innovation & Teamwork (CMOD6001)	5	Physical Computing (COMP6043)	5
Year 2 - Semester 1	CR	Year 2 - Semester 2	CR
Object Oriented Principles (SOFT7004)	5	Object Oriented Programming (COMP7013)	5
Database Design (SOFT7022)	5	NoSQL Data Architectures (COMP7037)	5
Operating Systems (SOFT7006)	5	C Programming (SOFT7019)	5
Requirements Engineering (SOFT7007)	5	OO Analysis and Design (SOFT7005)	5
Linear Data Structures & Algorithms (COMP7035)	5	Nonlinear Data Structures & Algorithms (COMP7038)	5
Server-side Web Development (SOFT7008) (E)	5	Probability & Statistics (STAT7007)	5
Year 3 - Semester 1	CR	Year 3 - Semester 2	CR
Distributed Systems Programming (SOFT8023)	5	Work Placement/Internship (PLAC7009)	30
Group Project (SOFT7003)	5		
Programming Mobile Devices (SOFT7035)	5		
Agile Processes (COMP7039)	5		
Programming for Data Analytics (SOFT8032)	5		
Technical Writing Using XML (COMP7040) (E)	5		

Progression to Level 8 Honours Degree

Graduates of the BSc in Software Development programme may progress to the final year of the level 8 BSc (Hons) in Software Development degree programme. All level 7 BSc in Software Development graduates who achieve a grade of Merit 2 (50% or greater) will be automatically offered a place on the level 8 programme. Please visit <http://cs.cit.ie/sdh> for full details of the level 8 programme.

CR = ECTS Credit, (E) = Example elective module. Work Placement is normally paid and organised by the department.
